

# Aqua-Tec Water Preservation Cell Protect your lab samples with confidence

Easily prevent microbial contamination from any  $CO_2$  incubator or water bath reservoir without chemical disinfection solutions.

The Thermo Scientific<sup>™</sup> Aqua-Tec<sup>™</sup> Water Preservation Cell is a revolutionary way to protect your valuable samples from waterborne contaminants without the use of harsh chemicals. Simply place the 3,7-inch (~ 9,4 cm) cell into the water reservoir of any  $CO_2$  incubator or water bath.\* The Aqua-Tec cell prevents contamination from most types of bacteria, molds, and fungi for up to six months.

The Aqua-Tec Water Preservation Cell was developed specifically for laboratory applications across a range of temperatures. It's safe to handle, requires no special protocol for disposal, and enables virtually maintenance-free microbial protection. The Aqua-Tec cell automatically self-regulates to maintain proper disinfecting concentration and effectiveness, regardless of the water level.

### Features and benefits

- Designed and tested specifically for laboratory use in CO<sub>2</sub> incubators and water baths
- Proven effective for up to 6 months against bacteria, molds, and fungi
- Safe to handle-requires no special disposal protocol
- Self-regulates to maintain effectiveness, regardless of water level
- Easy to use in equipment from any manufacturer

#### \* Use only sterilized distilled water in CO2 incubators.

### thermo scientific

## Thermo Fisher

## Safe and effective for you and your research-helps protect your valuable samples

The Aqua-Tec Water Preservation Cell has been proven to inhibit the growth of a wide range of commonly encountered microbes for up to six months. Eliminate the need to handle dangerous chemicals or expose sensitive cells to the risk of potentially toxic offgassing from disinfectants. The Aqua-Tec cell allows your  $CO_2$  incubators and water baths to operate at maximum efficiency and saves the significant time, handling, and exposure to chemicals that come with using traditional chemical disinfection methods.

#### Extra features assure protection

Each Aqua-Tec Water Preservation Cell comes with an optional suction cup for easy mounting on the reservoir wall if desired. Also included is a convenient sticker to remind you when to change to a new Aqua-Tec cell.

### Aqua-Tec Water Preservation Cell\* ordering information

| Description                       | Cat. No. |
|-----------------------------------|----------|
| Aqua-Tec Water Preservation Cells | 50109579 |
| value pack of 4 units             |          |

\*Aqua-Tec Water Preservation Cell is intended for laboratory use only.

The Aqua-Tec Water Preservation Cell is proven effective against a variety of common microbial contaminants including bacteria, molds, and fungi.

**Caution**: Causes eye irritation and may be harmful if swallowed. Avoid contact with skin, eyes, or clothing, and wash thoroughly with soap and water after handling. This product is hazardous to fish.
